Modern College of Professional Studies, Ghaziabad

Currently pursuing

Full-Stack Web Development

Arth Institute, Laxmi Nagar - 120-hour practical training

Completed 2024

HIGHLIGHTS

- 5+ portfolio and client projects
- 3+ client engagements
- 94/100 Lighthouse score on a delivered site

PROFILE

Full-stack developer building responsive, scalable web applications with React, Angular, Node.js, PHP, and relational databases. Focused on clean, maintainable code, reliable APIs, accessible interfaces, and performance-conscious delivery.

EXPERIENCE

Freelance Web Developer

2024 - Present

Self-Employed

- Develop and deploy responsive websites across e-commerce, service, and portfolio use cases.
- Manage the full delivery lifecycle from requirements and implementation through deployment and maintenance.
- Build reusable interfaces and REST APIs with validation, authentication, database integration, and error handling.

SELECTED PROJECTS

SarvadaaPower Corporate Website

Responsive energy-sector website used as a primary online presence and lead-generation channel. Optimized for mobile, SEO, and page performance.

E-Commerce Product Platform

React and Node.js platform with product search, filtering, cart state, REST endpoints, MySQL persistence, and JWT-based authentication.

Portfolio Content Platform

Responsive portfolio with an Express and SQLite API, secure administration, editable content, contact messages, and production-safe validation.

WORKING STYLE

- Responsive-first UI development and accessibility-minded markup
- Version-controlled delivery with testing, debugging, and documented handoff
- Clear communication from requirements through post-launch support
